

PRESERVATIVES

SODIUM BENZOATE

Product name: Sodium benzoate

CAS NO:532-32-1

Molecular formula:C7H5NaO2

Molecular weight:144

Quality standards:

ITEM		GB1902-2005	BP98
Assay(dry)	%	99.0-100.5	99.0-100.5
Loss on dry	% ≅	1.5	2.0
Appearance of solution		Meet the stipulation	Meet the stipulation
Acid and alkalinity	% ≅	passed	passed
Chloride	% ≅	0.03	0.02
Compound containing chlorine gas	% ≅	---	0.03
Heavy metal (Pb)	% ≅	0.001	0.001
Arsenic(AS)(mg/kg)	% ≅	0.0002	0.0002
Sulfate	% ≅	0.1	0.1

Packing:

The inner packing is PE film bag,and the outer packing is PP woven bag.Net weight:25KG/bag.

Usage:

- 1.Used as food preservatives,fungicide feed preservatives,pharmaceutical industry,dyestuff industry of mordant,plastics,plasticizers,also used in perfumery intermediates in organic synthesis.
- 2.Used in beverages,canned foods,juices,cold food,soy sauce,vinegar,areas such as toothpaste,cosmetics,detergents,paints,anti-corrosion.
- 3.Used as preservative for water-based adhesives.

Storage:

In cool and well ventilated warehouse,keep clear of light,spark,and high temperature.
